

AutoMotionShade[®]
SPECIALITY SHADING FOR THE TRANSPORTATION INDUSTRY

Auto-Motion Shade Inc., 400 Bentley Street, Markham, Ont. L3R 8H6 www.automotionshade.com

Auto-Motion Shade Inc., a medium sized manufacturer of parts to the Transportation Industry, is looking for a

R+D Engineer

Job holder is responsible for the development of new products in assigned areas at Auto-Motion Shade within the overall product planning process of the company and undertakes continuous value-engineering on existing products.

He is in close contact with AMS key OEM engineers to give technical support and helps troubleshooting technical problems either over the phone or on site.

He interacts closely with AMS' technical sales consultants in the field and customers on the production floor to help improve AMS product quality and installations

Skills Needed

- Sound experience in R+D cycle
- Excellent knowledge of current design tools (Solid Works)
- Solid knowledge of injection moulding tools
- Solid knowledge of quality assurance processes (ISO, TS)
- Experience in getting developed products into manufacturing process
- Good management, communication and people skills
- Ability to work effectively and efficiently with minimum supervision
- Ability to travel at (sometimes) short notice
- Fluency in English and Spanish

Education Required

- Post secondary degree, preferably with BA in mechanical, electrical or electronic engineering
- Proficiency in MS Office programs as well as competency in Solidworks (AutoCAD) usage

Suitable candidates should apply with full resume and salary expectations to hr@automotionshade.com
